

## SIMATS ENGINEERING

Saveetha Institute of Medical and Technical Sciences  
Chennai- 602105

**Student Name:** Vasantha Nithi D Y

**Reg. No.:**192424137

**Course Code:** CSA1707

**Slot:** B

**Course Name:** ARTIFICIAL INTELLIGENCE

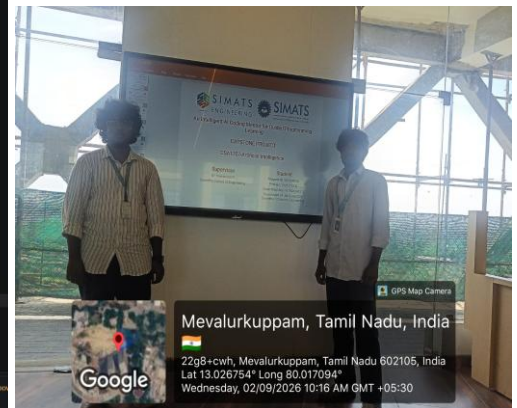

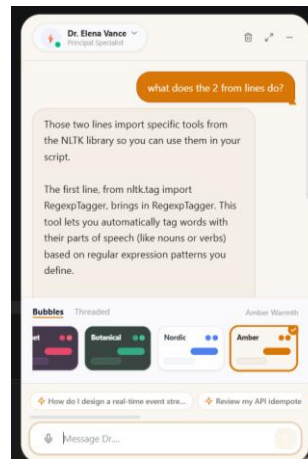

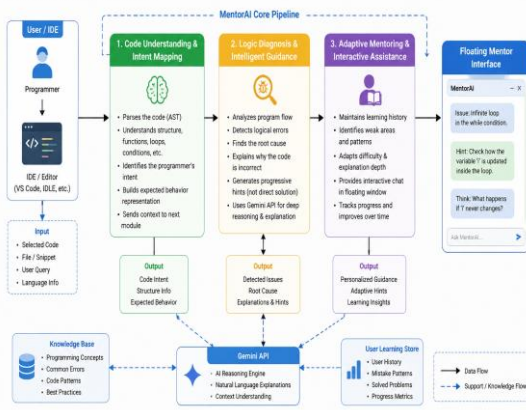

**Course Faculty:** Veeramani R

**Project Title: DocInsight AI: An Intelligent Document Analysis and Question Answering System**

### Module Photographs:

#### System Design – MentorAI

High level architecture and data flow

### Project Description:

DocInsight AI uses semantic search and knowledge retrieval to understand the meaning of user queries and find the most relevant information from uploaded documents. The module converts document content into meaningful representations, retrieves contextually related information, and provides accurate answers based on the document content. The system can be useful for students, researchers, educators, and professionals for quickly accessing information from large documents. Overall, DocInsight AI aims to provide an efficient, intelligent, and user-friendly solution for document analysis and knowledge retrieval.
